

www.JunesWebs.com
 A *Classy* Little Web Design and Maintenance Company

Reasonably Priced Professional Websites & Newsletters

A SPECIAL ANNOUNCEMENT

Our Newest Website "M.T.T. Survival Kits"

About the Owner

Experience:

After 41 years of working for companies as a computer programmer, database administrator, programming manager, IIS server analyst, and the last 12 years working with Websites, databases, and Newsletters, I have started my own contract Website and Newsletter company.

I use Network Solutions Hosting and Domain Registration for all Websites, and Constant Contact for all email Newsletters. If a company wants a website *and* a newsletter, the Newsletter can be available on the website also *and* the Newsletter history can be maintained there for your website visitors to read them at any time.

I use Adobe and Microsoft products for Web Design, as well as these coding techniques, ASP, HTML, CSS, JavaScript, and several others as needed.

Visit our website to see our portfolio and sample techniques. Add YOUR business TODAY to the dynamic list of businesses & websites in Henderson, now available on our home page!

We offer Website Design, Maintenance and Newsletters

Services We Offer

Websites and/or Newsletters:

Once the customer has considered and discussed with us:

- The goals of the new website/newsletter
- The basic information listed on the Contact Us page on our website
- The color scheme or websites/newsletters to be similar to
- Ideas for photography, graphics, animation, and/or Flash in addition to text and logo.
- Your choice of Dynamic Information (you update via the internet) or Static Information (Webmaster must update text)

We will provide a written estimated cost and completion date. You may chose either a flat fee or an hourly fee. Payment arrangements and an optional maintenance program will be defined in the contract, signed by both parties.

THEN we begin our work, meeting regularly with you to review our progress. We make certain what we are building is in harmony with your business needs. We provide high quality products in a timely, yet inexpensive, manner.
